

GLUEUP RESOURCES

JCI USA is transitioning from our membership database system, JayceeMember to a new system called GlueUp. This new membership platform will allow members and chapters to auto renew, send email campaigns, connect via communities across the country, and much more.

There's always a learning curve with change, so JCI USA has worked with GlueUp to offer the below resources to our Chapter and State leaders as we transition to our new platform.

GLUEUP RESOURCE LIBRARY

Essentially all functions and modules of GlueUp have guides and how-to articles in this library. We recommend looking here first if you run into issues.
